

## Meeting Notes 11/28

- **Summary of discussion**

We went over the progress report with our mentor, and gave a demonstration of how the stable matching algorithm works. Our mentor was satisfied with the proof of concept and the demo. We went over the changes we made to the project plan, specifically about integrating the security mitigations with our development process. Our mentor recommended that we make slight changes to the Ranking relation in our data model. Lesian discussed the details of the changes to be made with the mentor. We concluded the meeting by setting our next meeting on December 5th, 3:00-3:30p.

- **Advice from mentor**

Our mentor advised us to email her if we ran into any issues.

- **New decisions**

No major new decisions were made.

- **Changes to plan**

No major changes to the plan were made.

- **Milestones moving forward**

We intend to meet the goals we set for ourselves in the project plan for our minimum viable product submission.
